My dear Professor,

I enclose a copy of my photograph. I beg you will send me one of yours in exchange. My set of scientific friends is filled with gaps, which I am anxious to fill.

You would confer a very great obligation on me, if you could procure one of our old & lamented friend Dr. Torrey. I thought I had one, but must be mistaken, as I have just rearranged the album.

With my kindest regards to Mrs. Gray, I remain ever,

Very sincerely yours
